EVENING'S IN IRELAND .- This popular Exhlition, which has been attracting large audienses, lately, in Chicago, Detroit and Cleveland, will open next Wednesday Evening in Montomery Hall. It consists of the Cyclrama of a Cour in Ireland, illustrating the song and seenery of that beautiful country. Little John Braulding, aged nine years, appears in the character of Barney the Guide, which forms the principal feature of the entertainment. This wonderful child's singing and talented delineation of the Irish character, have elicited the high-est encoulums of the press. Miss Karr Mac-Evov's rendition of the beautiful Irish Malodies, are given with all the feeling and pathos which few, save a native Irish vocalist, can impart Miss Manie, the accomplished Harpist, executes choice solos with great taste and elegance. The paintings are admirable, and are clustered around with so many poetic fancies and historic associations, as to invest them with most delightful interest. See advertisement.

ment.

Mr. Hindman—It is not in your power to create any in my mind.

Air. daraett—Suppose you believe as you did several rears sgo, that ih army was to be used for improper purposes, would you not desire to debate the subject.

Mr. Sherman ropiled that if he thought that the army was to be used for such purposes, he would insist upon having the subject debated. But I dissent from his declaration that the President is using, or means to use his army or nary for unconstitutional purposes. The President has solemnly declared to the world that he does not posses power to coerces State, and that Congress has no such power. I insist he has done no set incoesistent with these declarations, nor is it right to assume that he will. The measures taken and to be taken to preserve and defend the forts and arsenals are only in the performance of a duty imposed upon the executive by the Constitution and the laws.

It is as much the duty of the President to defend for Sunter sgainst all trespassers as it would be to employ all the resources at his command to defend this Capitol, where we are deliberating assiduously and carrierty to adjust the unhappy differences between the North and the South.

Mr. Stanton always claimed that the minerity should have an opportunity to debate; if gentlemen my after a reasonable time is allowed for that purpose, there should be no factious opposition, he would have no objection.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitisted, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by increarial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitu-tions not only suffer from scrofulous complaints, but they have fur less power to with-stand the utracks of other diseases; conse-quently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered final by this taint in the system. Most of the consumption which decimates the lemma family has its origin directly this scrotulous contamination; and many estructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

and indeed, or all the organs, arise from or enggravated by the same cause. One quarter of all our people are scrofulous; our persons are invaded by this lurking in-ction, and their health is undermined by it. To chause it from the system we must renovate the blood by an alterative medicine, and in-vigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every baned from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the avsten from its destructive consequences.

Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Enuprive and Skin Diseases, St. Anthony's Fine, Rose, or Environment, Publics, Pustules, Blatches, Blains and Boils, Tumbrs, Tetter nd SALT RHEUM, SCALD HEAD, RINGWORM, REPRESENTEN, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, imbed, ALL COMPLAINTS ARISING FROM VITIA-TID OR INFURE BLOOD. The popular belief in "coparity of the blood" is founded in truth, for secondal is a degeneration of the blood. The sarticular purpose and virtue of this Sarsapa rills is to purify and regenerate this vital fluid, without which sound health is impossible in

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Billous Headache, and Billous Fevers, indeed for the whole class of diseases originating in billary derangement, caused by the Malavia of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly humbles in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "CURE" expels the miasmatic poison of FEVER AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dellar brings it within the resch of every body; and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the spredy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quintism or other injurious effects whatever upon the constitu-We are enabled here to offer the community a tion.
